

THEY WERE RUNDOWN

How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

HAWAII AT HEAD OF LIST FOR SIZE

Hawaii's high rating for enrolment of national guardsmen as compared with her eligible population is given official notice in the annual report of the militia bureau, prepared by Col. George W. McIver of that department.

Announcement is made that Hawaii stands at the head of the list for the size of her guard, taking into consideration the supply from which she is able to draw. New York stands 20th in the list. The available age for entering the guard is from 18 to 45 years.

In this territory the percentage of militia men to available male population is given as 4.73. The total available population of the United States was 20,508,964 and the total strength 139,894.

ST. LOUIS MAY GO BACK TO COAST

Reports that the cruiser St. Louis might be withdrawn from the islands are not given official confirmation at Pearl Harbor, where it was stated today no word has been received in orders for any such action.

It is a custom for ships of the navy to go into drydock every six months, and as the St. Louis has been here for a good portion of that time already it is not unlikely that she may go back soon to the mainland for overhauling, to return again to the islands.

Men of the submarine division are preparing for an early start tomorrow morning on the 90-hour quarterly run. It is expected that they will start from the base about 7 o'clock.

SHERMAN LIKELY TO BRING LUMBER

Beginning next month or in March the transport Sherman will probably make one or more trips from San Francisco to Honolulu only, carrying lumber for buildings at Schofield Barracks, according to Lieut. Col. J. B. Houston, Quartermaster Corps.

As the lumber for this work has not been purchased as yet, however, it is difficult to say just when these sailings will be made.

According to Eastern mainland papers the Sherman was to leave for Honolulu on January 15, bringing passengers for duty here, but this is not thought likely by officials.

It is admitted that the foreign roster resumption will affect the passenger bookings on transports to quite an extent, and it is barely possible that such a trip might be scheduled, but no word of any such trip has been received here officially.

CRUISER ST. LOUIS TO HOLD TARGET PRACTISE

Preliminary gunnery practice for the cruiser St. Louis will commence on January 19 in preparation for regular target practice which will be held in February, and which will include work with guns of all calibers on the cruiser.

The tug Navaio will probably tow the targets during the practice somewhere off the coast of Oahu.

MODERN SOCIETY FOUND WANTING

"The Spirit of '76" and "The Spirit of Today" when placed side by side in comparison leave much to be desired at the present time. Especially is this true when modern society is taken as the standard of comparison. It is strongly emphasized in the current feature offering at the Hawaii theater, "The Dawn of Freedom."

Charles Richman, former stage favorite and star at various times for a number of the leading producing companies, appears in the leading role of this Vitaphone "Big Four" feature film. The subject, aside from being unique, is handled in a most novel manner from the standpoint of the film. A patriot, with the spirit of '76, comes out of the past like a shadow and endeavors to bring solution to modern day problems through the medium of the ideals of gallantry and love as they existed in Revolutionary days.

The patriot finds loyalty and honor on the wane and his every effort is bent towards a restoration of conditions as he had known them, when Washington crossed the Delaware and other great events were happening that were to make the keystone of American history. The frailty and weakness of present day social life do not disgust the patriot, but they make his heart bleed to reclaim the land he loves.

BIG ALOHA FOR MARY PICKFORD

Honolulu photoplay fans are evidently intent upon giving Mary Pickford a send-off that would make glad the heart of that little star-did she but know the facts. They are wishing her bon voyage into her new venture which places her at the head of her own producing company with a spirit that is typically Hawaiian. Their aloha for this favorite daughter of the screen is big and it is being demonstrated at the Liberty theater, where she is appearing in "Hulda From Holland," the last Famous Players picture in which she will be seen here. The next Mary Pickford feature will be the work of her own organization, and, as yet, there are no arrangements made for the local handling of the new service.

"Hulda From Holland" shows Mary Pickford to as good advantage as anything she has appeared in recently. As the little Dutch girl she has an opportunity to render one of her best screen characterizations.

The supporting cast is composed of famous players and the work behind the star is exceptionally good. Especially is this true of the trio of juveniles who are members of the cast. Children in the movies are always of deep interest. In this instance they are above the average.

MORE MEN THAN WOMEN HAVE APPENDICITIS

Surgeons state men are slightly more subject to appendicitis than women. Honolulu people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adier-ka, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adier-ka is surprising.
